EXPRESSION OF INTEREST (EOI)
FOR ENGAGING PRIVATE SECTOR
TO UPGRADE & OPERATE SELECT GOVERNMENT SCHOOLS
THROUGH PUBLIC PRIVATE PARTNERSHIP (PPP) MODE

DEPARTMENT OF SCHOOL EDUCATION
GOVERNMENT OF UTTARAKHAND

**DETAILED EXPRESSION OF INTEREST (EOI) FOR ENGAGING PRIVATE
SECTOR TO UPGRADE & OPERATE SELECT GOVERNMENT SCHOOLS
THROUGH PUBLIC PRIVATE PARTNERSHIP (PPP) MODE**

1. Introduction :

Government of Uttarakhand and Government of India have created many schemes to improve the infrastructure and quality of education in primary and secondary schools of the state. Education also has been identified as one of the key reasons for outward migration from remote/hilly areas of the state. This has left many government schools as underutilized assets and a trend of sending children to private schools is emerging.

GoUK is planning to explore all the options to ensure that the government schools in remote areas could be made first choice among the locals by engaging the private sector & citizen groups like alumni groups from these schools, philanthropists from these areas or attracting CSR funding to improve the school infrastructure and quality of education.

2. Project Rationale

There are many government schools which are witnessing decline in number of students and lack of teacher's availability in some areas. In these schools, infrastructure has also deteriorated to certain extent in recent years.

These schools can be upgraded by investment from private sector, mainly the alumni groups from these schools, philanthropists from these areas or CSR initiatives and also operated under the management by the same groups.

Government may also take part in supporting these schools on case to case basis if the private funding falls short or on account of viability gap issues.

3. Project Proposal

This project shall have following salient features:

- The private sector may propose choice of government schools they would like to support/operate under this initiative.
- A framework shall be designed to check if the school is suitable for this initiative based on :
 - Current strength of teachers and students
 - The proposed plan of the private sector for up-gradation and management of school
 - Availability of land in the school

- Endorsement of elected local body like panchayat, urban local body & parent's association may also be made part of the project proposal
- Government shall provide these schools on as is where is basis.
- Up-gradation plans with rehabilitation of schools, addition of classes, other necessary infrastructure, day boarding, transport, residential facilities to cater to nearby population would be given preference.
- Private sector is expected to design, rehabilitate/upgrade, construct, operate and maintain the school for a certain period. This period maybe extended based on the performance of the school.
- School shall have to adhere to RTE and other obligations as per existing laws. School management shall provide minimum percentage of students as per the government prescribed fees structure to ensure affordable quality education to poor and needy families of the surrounding area.
- School should adhere to universal & secular education practices.
- The fee structure and other charges of the school shall be as approved by government and every effort should be made to keep it affordable and reasonable.
- Schools maybe affiliated with state board or CBSE as the case maybe.
- School infrastructure upgrade should adhere to modern norms of CBSE/Kendriya Vidyalay/Navoday Vidyalay/GoUK standards as the case maybe.
- Project proposals with self sustaining or full private funding shall be given preference. The possibility and extent of government support shall be decided based on feedback received after EOI stage.

4. Locations :

Choice of location is left to private sector at this moment. However the selected school shall be subject to check against suitability framework for this initiative.

5. Role of Selected Private Partner

Scope of work for private sector partner would include following:

1. Design, rehabilitate/upgrade, operate & maintain the schools as per agreed service levels
2. Organizing finance for the project
3. Provide other essential facilities like transport, day boarding etc.

4. Provide all teaching related resources like trained & qualified teachers, administrative staff, teaching learning materials etc.
5. Operate Manage the school strictly as non-profit entity.
6. Conducting learning outcome assessment or participating in similar assessments conducted by DoSE or other reputed third parties and ensure achievement of key performance indicators of learning outcomes.

6. Role of Government of Uttarakhand

Scope of work for Government would include following:

1. Providing the selected government schools on as is where is basis
2. Provide financial support if approved.
3. Monitoring the projects to ensure quality of service

7. Program Execution

It is proposed that project shall be implemented in following stages :
